

## Tocal Field Days

The Newcastle Spinners and Weavers Guild, supports the Tocal Field days which are held over the first weekend in May at the Tocal Agricultural College.

During this event, the Guild operates a stall where all items for sale are made from handspun fibres which have been handcrafted by members, felted items produced by members or items which have been handwoven by members.

Demonstrations in spinning are conducted each day, and information about the Guild is available.

Display and demonstration
